Logistics

Average = 4.77

Comments

- Reception was warm, Employees were very concerned Adequate particular provision made for movement.
- Providing a handout or pamphlet is very essential for reference purpose.
- Staff should learn more about English language.
- Job well done.

Briefing Session

Average = 4.83

Briefing on the overview of Doi Tung Development Project and the Mae Fah Luang Foundation and Visit the Project's database center

Site Visit

Average = 4.56

Comments

- Cottage Industry Centre and Waste Management : Try and provide handout for visitors.
- The hall of Opium : More time should be prefer.

Additional topics to study for future program

- Would like MFLF to include in its study, the topical issue of the need for more research to suffice the claim that cannabis has medical values for treatment if many human ailment e.g. Cancer.
- Field study of poppy plant farm.
- Measures for drug control.
- Clean destine laboratory for processing opium poppy.
- Adaptation of training skill in Nigeria.
- Serene environment structure maintenance.
- Using local technology for machine being.

Additional comments

- The hall of opium seem to be degenerating in its general outlook. Did not quite find the outlook as captivating as it was to be 3 years ago and MFLF is known for excellence.
- Satisfactory register basic should be provided where all visitors could write their names, sex, country, profession, marital status and department
- Information of the issue of the opium.
- I am overwhelm by the beautiful environment should supporting staff and the objectives of the Mae Fah Luang Foundation.
