Dear 888, TPY, 777, the advisors, P'Duke and all,

For your information and suggestions please.

We have been contacted by the Embassy of Australia that Dr Sharman Stone, Australian's Ambassador for Women and Girls will be in Thailand during 29 - 31 March as the representative of the Australian Government, to attend High-Level Panel Discussion on "Gender Equality and Empowerment of Women and Girls at the Asia-Pacific Forum on Sustainable Development (APFSD 2017) and she would like to visit Doi Tung Development Project after the mission on Saturday 1st April from 8.30 - 12.00 hrs. (Her flight back to BKK is at 14.20 hrs.)

The ambassador is interested in development works; works that related to children and helping/empowering women, and the DAP funded project (Landslides disaster protection) which Dr. Jack is taking care of. On that day, Dr. Jack will be presenting the progress of the Landslide project to the ambassador and we will have our Living University staff supporting.

Dear 777,

May I please ask for your kind advice regarding the arrangement and our representative (s) to best provide information about Doi Tung and works related to children and women or any other point we should add ka?

With respect,
Field

Dear Khun Art,

My name is Field. I am contacting you on behalf of the Knowledge and Learning Center, Mae Fah Luang Foundation. I have heard from Khun Porn about the visit of Dr Shaman at Doi Tung for the study visit and seeing the project progress. Thank you very much for your interest.

In order to prepare for her visit, would you kindly provide more details as following?

- Will the transportation to Doi Tung be arranged by the embassy?
- Is there any staff accompany the ambassador?
- Since the visit is quite short, is it possible to scope down the areas of interest that the ambassador may expect us to present; development works, social enterprise or tourist destinations for leisure?

Sincerely yours,

Field
